ABOUT ME

I'm a highly driven developer with full-stack experience and a passion for frontend. I thrive in energetic, creative, and collaborative environments where I can help to build great products and continue to grow.

WORK EXPERIENCE

Software Engineer

Working Not Working

Aug 2021 - Dec 2023

- Collaborated within a small, agile development team using Ruby on Rails to construct full-stack components, encompassing onboarding flows, status updates, and profile/project pages.
- Translated intricate designs into pixel-perfect web pages, ensuring a seamless user experience.
- Implemented unit testing for all new functionality to guarantee the integrity and reliability of the codebase.
- Engaged in cross-functional collaboration with internal teams throughout the entire development process from project kickoff to design, QA, deployment, and subsequent updates.

Frontend Engineer

Redesign Health

June 2020 - Aug 2021

- Spearheaded the development of dynamic marketing websites for healthcare startups, leveraging Next.js and headless CMS platforms such as Storyblok and Contentful.
- Collaborated closely with the design and marketing teams, as well as founders, to translate their vision into captivating and functional websites.
- Engineered reusable components, adhering to the principles of DRY (Don't Repeat Yourself), to enhance code maintainability and ensure optimal performance.

Frontend Engineer

Atelier Ace

Apr 2019 - June 2020

- Contributed to the construction and upkeep of the Ace Hotel website,
- Developed and maintained 13 distinctive food and beverage websites, each reflecting unique identities and branding.
- Collaborated closely with design and marketing teams to align digital assets with brand objectives.
- Utilized ticketing systems on a daily basis to efficiently manage workflows, ensuring the timely delivery of all assets.

Software Engineer

Misc.

2018 - Present

- Collaborated with clients across diverse industries to craft bespoke websites.
- Clients include: Hugo & Marie (Elyse Walker), Thinkingbox (L'Oreal), Gates Creative, Grizzly, Studio LaRocca
